PROFESSIONAL PROJECTS

CISL Open API Website (Allianz Technology)   Technologies: Node JS, Angular, Typescript, Postgres
Brief: I am developing both the frontend and backend of the CISL website which uses open API's (microservices) for different components and features.

CISL Microservices (Allianz Technology)

Technologies: Node JS, Typescript, Postgres

Brief: I am working on several different CISL(core insurance service layer) microservices, which are used by the website, customers etc.

---

http://endroit.in/

Technologies: PHP, Wordpress

Brief: This is my personal website for premium wordpress, themes and plugins. .

Guidecraft.com, Tilotrikes.com, Universityfc.com, GuidecraftKitchenhelper.com (Guidecraft INC, May/17- Present)

Technologies: PHP, MySQL, Android, AWS, MWS, Wordpress, Javascript, MySQL, React JS, AMP, HTML, CSS, Google Advertising

Brief: These are ecommerce and branding sites, my role is to do R & D of these projects which improved sales and brand value several times in the past few years. These sites are for selling toys and furniture etc, majorly in the US & China. I am developing and maintaining these sites and leading the tech team too.

———

Endroit Friend Locator- (Personal, Feb/18- Jan/19)-

Java, Android, PHP, MySQL, Web Services, Google Maps API

Brief: I built this android application for tracking the real time location of your family and friends using Google Maps API. This is my personal project.

———

Creditmate- (Urja Money Pvt Ltd. Mar/17-Apr-17)

Technologies: Laravel, PHP, MySQL, Java, Android, Javascript, Facebook API, Machine Learning, Memcache
